- ✓ Sturdy vacuum cleaner for intensive use
- ✓ Powerful lobe pump with electric motor
- ✓ High performances and long-lasting equipment
- ✓ Low noise level
- ✓ Complete steel construction
- ✓ Easy and safe to maintain

SUCTION UNIT

The suction unit is provided with a volumetric vacuum pump with tri-lobe rotors and lateral injection cooling system. This pump can reach very high airflow and waterlift levels
A safety filter guarantees the maximum protection for both motor and pump
A soundproof painted steel enclosure with cooling fan protects the pump from external agents
The unit must be coupled with a filter hopper
